## Ex. 5 Deliberative Process (DP)

As for the 2014/2015 MYA effort, I've attached the raw data excel file to this email. The attached excel document is the compiled results from our last survey. The results of the survey led to the Multi-Year Agenda in December 2015. You can sort by chemical and it will list out the interest expressed by all the offices/regions that responded.

I was on the team that compiled the results and built the spreadsheet so let me know if you have questions about how we did it or how the spreadsheet works.

Thanks!

Dahnish

Hi – I put everything Norm gave to me on the IRIS management council website:

## Ex. 6 Internal Web Address

Let me know if you have trouble accessing this folder.

Hi team IRIS – do we have the submissions and summary table that Norm may have put together from the 2014 work on the multiyear agenda? Is that in the IRIS sharepoint?

I'm finding that some offices are repeating themselves on what they've sent before, or are asking what they sent before and we probably need to check the history before we connect to update with the offices on ongoing assessments.

Ingrid et al.,

Per your question, Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) I believe our current needs would be consistent with the information we provided previously, but since these was completed several years ago, I can go out and reconfirm with our offices if that would be helpful.

That said, if you need input from our offices, it will take more time. Could you let me know in what time frame you need a response?

Thanks for engaging us on this,

Kathleen

**Subject:** Re: NP needs

Good Morning Kathleen,  
Thanks again for your support of the IRIS assessment for Naphthalene. We just have a couple quick questions for you to help us in drafting the naphthalene assessment:  
Could you let us what specific need for the assessment of naphthalene your office has and what the assessment will be used for please?  
Thanks much in advance,  
Ingrid
